VERTICAL HANDLE HOLD-DOWN CLAMPS

Series TC-2002, 2007, 2010

Sale Price
As Low As
\$11.99

Now you can save valuable space in all your applications without sacrificing holding capacity or clamp performance. The open "U" bar has a knob on the end to prevent the spindle from slipping off the end of the arm. Unique design delivers greater hand clearance in the open position, eliminating pinch points and improving safety and ergonomics. Clamp comes complete with ergonomic handle grip, two flanged washers and spindle assembly ("U" bar models only). All "S" bar models supplied with bolt retainer.

FIXTURE CLAMPS

Save
10%

The Mitee-Bite™ clamping system combines strength, versatility and performance with economy and ease of use. Consisting of a cam action socket cap screw with a brass hex washer, set ups are simplified even for hard to hold parts. Its small size allows more parts per load on multiple series jobs. The low profile makes programming easier because there are no clamps to jump over. Fast to use (just 1/4 turn of screw loosens clamp) and no loose parts to set up each time. Economical— all six sides of the hex nut can be used. Available in six sizes for use on multiple part fixtures. Metric sizes are in millimeters. MB-10203 and MB-50207 are stainless steel.

LIFTING HOOKS

Swivel & Pivot
Inch and Metric

Save
More Than
15%

Full swivel and 180° pivot with double ball bearings for smooth tilting, twisting and turning, all without jerking of the lifting point. Suitable for all sling systems, either hook, eye or loop. Has non-protruding hook tip and is extremely durable. Special design hook top. Forged safety latch which engages in the top of hook therefore, protected against lateral bending. Coiled double leg spring in stainless steel protected by latch design. Wearing edges on both sides. Gauge marks for measuring the opening (width) of hook.

IMPORTANT NOTE: All lifting points have a proprietary fluorescent powder coat finish. By changing its color, the finish permanently shows the temperature to which the lifting point has been exposed. When this color change occurs, the lifting device should be replaced immediately.

Note: Torque hand tight with spanner.

Drill Gauge With
Every Purchase**

A pocket sized book that contains a wealth of up-to-date, useful, practical and hard to find information. Every page is coated with a glare-free laminate that keeps pages from being torn and grease stained. Ideal for tools rooms, machine shops, fabricators, apprentices, technical trade colleges, industrial and fastener professionals and more. Drill point sharpening gauge supplied free with each book.

MACHINIST'S CALCULATOR

Cat. No. **BCQTIS-MC-20**

Only \$38⁹⁵

Determine the best machine speed and feed rates for all tools and material accurately with complete portability. Modern high-speed equipment combined with vastly superior tools yield production and quality advantages like never before. The

machinist's calculator provides operators a hand-held device to determine startup parameters in the machine/tool/material equation. Achieve optimum production; minimize tool damage and wasted pieces. Built-in formulas return proper RPM, SFM, IPM, FPT, and CT (Cut Time) for all operations on all kinds of set-ups for machine, materials and tools. Calculator has prompting formats and yields time estimates. Perfect educational tool that fits in palm or pocket.

Battery Packs
Only \$12.99 Each

Rayovac Hybrid rechargeable batteries come pre-charged and ready to use. In addition to that, Hybrid battery technology takes NiMH batteries to a higher level. Hybrid batteries hold their charge significantly longer than standard NiMH batteries, when not in use. These convenient features along with the power to operate high drain devices provide a great product.

INDUSTRIAL HYDRAULICS

Air Hydraulic Pump

ENERPAC®

Sale Price
Only
\$525⁹⁵

Rugged construction for long life and easy service. Swivel coupling simplifies hydraulic connection and pump operation. Three position treadle provides cylinder advance, hold or retract operation. Operates in all positions for increased versatility in use and mounting. Base mounting slots provided. See page 147 of our 2009 Full Line Catalog for other pumps.

Light Weight Hand Pumps

Sale Price
As Low As **\$304⁹⁵**

ENERPAC®

These compact pumps have a two speed operation to reduce operator fatigue. The pump base is made of nylon encapsulated aluminum and the reservoir is made of glass filled nylon for resistance to corrosion. The handle is made of non-conductive fiberglass and locks for easy carrying. There is an internal pressure relief valve for overload protection. See page 147 of our 2009 Full Line Catalog for other pumps.

Hydraulic Wedge and Spread Cylinder

ENERPAC®

Sale Price
Only
\$243⁹⁵

For use in very confined work areas. Compact design allows cylinder to be wedged into tight areas and then can be spread to position or hold. Maximum operating pressure 10,000 psi. Maximum stroke is 11-1/2".

Speediest Install Time

Hollaender, Your Handrail Source

Safety is always the priority in a manufacturing or industrial setting. Hollaender pipe fittings provide a strong, durable safety rail that can easily be reconfigured. There's no welding or threading making installation quick and simple for your standard maintenance personnel.

Hollaender
O.S.H.A. COMPLIANT

One System – Multiple Applications

This clamp and tube connection system can be configured using an infinite variety of sizes, shapes and clamp features, which offers a degree of flexibility that makes it beneficial to virtually all industries. Some of these industries include production assembly, all areas of material handling, mechanical engineering, OEM machinery design and the automotive and paper industries. They may also be used in applications like food packaging and beverage and chemical processing.

Vulcan® Hard Hats

HARD HATS AND ACCESSORIES

Sale Price
As Low As **\$4⁸⁹**

Full Brim

Squeeze Lock

Ratchet Suspension

The Vulcan's construction features a rain trough, universal accessory slots, eyelets for affixing chin strap and embossed date of manufacture. Inside, the Vulcan hard hat features an ultra soft yet strong, super comfortable, 6 point woven nylon web - crown strap system that acts as a rugged shock absorber with six load-bearing points to spread impact over a larger area, and stabilize the hard hat. Choose from "Squeeze Lock" or ratchet suspension adjustments. Included FREE with suspension - a detachable plush cotton terry, laminated over soft foam, front sweatband to enhance comfort and snug sizing without leaving marks on forehead. The full brim model displays metric tables and celsius/fahrenheit temperature conversion charts under the brim.

MiraCool® Hard Hat Pad Insert

- Use your head to stay cool with MiraCool® hard hat inserts
- Just minutes in cool water, then fasten to hard hat suspension
- Air movement around the suspension enhances cooling evaporation
- Does not interfere with any hard hat safety standards

Sale Price
Only **\$3⁴⁹**

Cat. No.	Description	Sale Price Each
BCQ1815019	Hard Hat Pad	3.49

MIRACOO® BANDANAS

- Soak MiraCool® in cold water for 10-20 minutes
- Stays hydrated for several days
- Reusable thousands of times
- Works without freezing or ice
- Increases alertness and productivity
- Ideal for factory, construction and laundry room workers, welders, painters, chefs or anyone working or playing in a warm environment - indoors or out.
- Deluxe - longer, wider, holds more cooling water than regular bandana

Sale Price
Only **\$2¹⁹**
